# ONE GROUP CENTRAL

## BOARD BRIEF

A one page summary to share with your board

**Someone on your board is looking at One Group Central for your group. This page covers what it is, what it costs and what the free trial involves, so the board can decide whether to try it.**

### What it is

A private member portal with your group's name and logo. Members get announcements in the app and by email, your documents in one searchable library, a calendar with RSVPs, chat, a member directory, polls and elections. Only people you invite can get in. It takes the place of the email chain, the shared drive, the Facebook group and paper ballots. It runs in any web browser on phones and computers, and there is a free iPhone app.

### How a vote works

1. Set the ballot to open on the day you choose, and attach the contract or bylaw change to the question so members read what they are voting on.
2. Write the announcement once. It goes out by email and phone notification when voting opens.
3. Members vote from their phones while voting is open. Nobody has to be in the room.
4. Stop voting when you are ready and tally. Members see the result in the app.

### What members can trust

Ballots are encrypted, and admin screens show totals only. Each eligible account gets one accepted vote, and each voter gets a receipt they can match to a published entry in the vote record. We do not claim the system is operator-proof. Your data is encrypted in transit and at rest. Check your group's rules before you use any tool to vote online.

### What it costs: one flat fee for the whole group, never per member

| Starter, up to 100 | Growth, up to 300 | Plus, up to 500 | Enterprise, up to 1,000 |
|---|---|---|---|
| $49 a month | $99 a month | $149 a month | $199 a month |

Pay yearly and save 20 percent. Every plan includes every feature, with no setup fee and no contract. Texting is an add-on from $12 a month. Verified 501(c)(3) nonprofits get 20 percent off.

### The free trial

60 days free for up to 25 people, enough for the board and a pilot group, with no credit card. Ask and we will raise the limit. We load your member list and documents and walk through your first vote with you at no charge. Nothing turns into a paid plan on its own, and if you leave you take your member list and vote records with you. If your first election does not run the way we promised, we refund your first month.

### What it does not do yet

You cannot collect dues or event payments in the portal yet. The free app is not on Google Play yet, so members on Android use it in the browser, unless you add your own branded app.

*To start, create your portal at onegroupcentral.com/signup. To see it first, book 30 minutes at calendly.com/njligames/30min, or ask James Folk to join your board meeting for 20 minutes by video: info@onegroupcentral.com or 631-327-0064.*
