Enterprise	$199	Up to 1,000	60,000	50 GB	$95/mo, 4,000 texts

Plans differ in capacity, and Enterprise also includes the branded apps. Every plan has every feature: documents, announcements by app, email and push, chat, a calendar with RSVPs, polls, a member directory, an encrypted vault for sensitive documents, member groups, admin permissions, an audit log, and elections where ballots are encrypted, admins see totals only, and each voter gets a receipt they can check. Above 1,000 members, ask for a custom agreement.

Texting is an add-on. The monthly figure is an allowance with no per message charge, enough for about four texts a month to a full list. Members opt in with a phone number and can reply STOP at any time, and texting stays off until an administrator turns it on.

We load your member list and documents and walk through your first vote with you, free. Nothing converts automatically, and if you leave you take your member list and vote records with you. Want a written quote, or 20 minutes at your board meeting by video? Ask James Folk at info@onegroupcentral.com or 631-327-0064.
